FRESH LICENCE

FORM 28-A

(See Rule 76-A)

Loan Licence to manufacture for sale (or for distribution) of drugs specified in Schedule C, C (1) excluding those specified in schedule X

1. Number of licence and date of issue No G/28A/4861 -A Dated -20/05/2010
2. I. Mr. SOHIL MOHMED KALVA 2. Mrs. ZAHIDA SOHIL KALVAPARTNERS of M/s. ANGEL PRODUCTS is hereby granted a Loan licence to manufacture on the premises situated at F/5, FIRDAUS FLATS, 4 TH FLOOR, Nr. B.M.C. BANK, KHANPUR, AHMEDABAD - 380 001.
   C/o
   M/s. SHAILESH SURGICAL, 368, Nr. AVTAR HOTEL, NAROL-NARODA HIGHWAY, ISANPUR, AHMEDABAD - 382 443.
   the following drugs being drugs specified in schedules C & C(1) (Excluding those specified in sch. X) to the Drugs and Cosmetics Rules 1945.
   Names of Drugs: As Per List Approved & Annexed
3. Names of approved competent technical staff: Approved technical person of SHAILESH SURGICAL, AHMEDABAD.

3. A The licence shall be in force From 20/05/2010 To 19/05/2015

4. The licence authorizes the sale by way of wholesale dealing by the licensee and storage for sale by the licensee of the drugs manufactured under the licence, subject to the conditions applicable to licence for sale.
5. The licence is subject to the conditions stated below and to such other conditions as may be specified in the rules for the time being in force under the Drugs and Cosmetics Act, 1940.

Signature :
Designation : Commissioner
Food & Drugs Control Administration
Gujarat State.

Date: 20/05/2010

Conditions of Licence

1. This licence and any certificate of renewal in force shall be kept on the approved premises and shall be produced at the request of an Inspector appointed under the Drugs and Cosmetics Act, 1940.
2. If the licensee wishes to undertake during the currency of the licence to manufacture any drug specified Schedule C and/or C (1) not included above, he should apply to the Licensing Authority for the necessary endorsement as provided in Rule 75(A). This licence will be deemed to extend to the items so endorsed.
3. Any change in the (competent technical staff) shall be forthwith reported to the Licensing Authority.
4. The licensee shall inform the Licensing Authority in writing in the event of any change in the constitution of the firm operating under the licence. Where any change in the constitution of the firm takes place, the current licence shall be deemed to be valid for a maximum period of three months from the date on which the change takes place unless, in the meantime, a fresh licence has been taken from the Licensing Authority in the name of the firm with the changed constitution.

Certificate of Compliance

CE

We hereby declare that an examination of the under mentioned full quality assurance system has been carried out the following requirements of the national legislation to which the undersigned is subjected, transposing annex I-II (with the exemption of section 4) of the directive 93/42/EEC on medical devices. We UKCert Certify that the full quality assurance system confirms with the relevant provisions of the aforementioned directive. Identification of the products covered by this certificate is given in the Appendix

Certificate No.: CE-2145

Manufacturer

Name : **Angel Products**
Address : **Plot No. B-159, G.I.D.C., Electronic Estate, Sector-25, Gandhinagar-382025, Gujarat, India**

Product Name : Infusion Sets, Blood Administration Sets, Urine Bags, Urometers, Infant Feeding Tube,Ryles Tube, Suction Catheters, Thoracic Catheters, Thoracic Trocar Catheters, Nelaton Catheters, Measure Volume Sets, Micro Drip Sets, Mucus Extractor, Tur Sets, Endotracheal Tubes, Three Way Stop Cock, Pressure Monitoring Lines, Extension Lines, Adk Bags, Icd Bags, Oxygen Masks, Nebulizer Mask, Twin Bore Nasal Cannula, Hmef Filters, Guedel Airways, Scalp Vein Set , Cord Clamps, Spiral Lines, Close Wound Suction Set, Yankaur Sets, Catheter Mount, Breathing Circuit, Karman Cannula, Hiv Kit, Icd Kit, Surgical Gloves, Biomedical Waste Bags, Face Mask, Surgeon Cap, Gowns, Aprons, Arm Sleeves, Shoe Covers , Chest Drainage System, A V Fistula , Transducer Protector, Haemodialysis Blood Tubing Set, Dialysis On - Off Kit.

Classification of Medical Device : Medical Devices – Class I-II

The Certification body has performed an audit of the above product quality system covering the design, manufacture and final inspection of the certified product. The quality system has been assessed, approved and is subject to continuous surveillance according to Directive 93/42/EEC Medical Device Directive.

This certificate is issued under the following conditions:

1. It applies only to the quality system maintained in the manufacture of above referenced models and it does not substitute the design or type-examination procedures, if requested.
2. The certificate remains valid until the manufacturing conditions or the quality systems are changed.
3. The certificate validity is conditioned by positive results or surveillance audits.
4. After fulfilling the relevant EU legislation of Class I-II in medical directive, the manufacturer shall affix to each device, of the referenced models.
5. The CE mark as shown above can be used, under the responsibility of the manufacturer, after completion of an EC Declaration of conformity and compliance with all relevant EC Directives in Class I-II product. The statement is based on a single evaluation of one sample of above mentioned products. It does not imply an assessment of the whole production.

Validity of this certificate can be verified at www.ukcertifications.co.uk/verify

Date of initial registration	30th June 2015
Date of this certificate	30th June 2015
1st Surveillance Audit Due	29th June 2016
Recertification due (subject to the company maintaining its system to the required standard)	29th June 2018

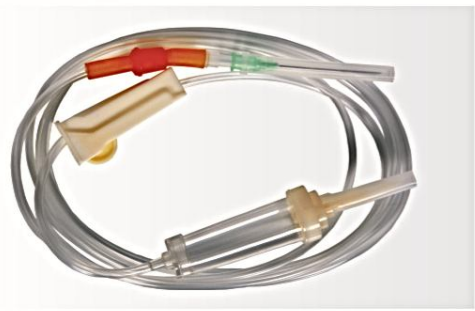
INFUSION

INFUSION SET NON-VENTED
13 MM, 14 MM & 16 MM INFUSION SET

- Sharp piercing spike for easy insertion in IV. container.
- Cylindrical collapsible drip chamber to visualize the flow rate.
- Disc type fluid filter to filter any particulate matter in the I.V. fluid.
- 150 cm long super smooth kink resistant tubing with efficient roller controller for accurate and unrestricted flow.
- Flash ball type injection port for extra medication.
- Infusion set with drop rate of 20 drops/ml.
- Sterile and individually packed



INFUSION SET WITH AIRVENT
INFUSION SET WITH MICRODIP

VENTED INFUSION SET

- Infusion set with built in air vent and bacteria barrier hydrophobic filter.
- All other features are as above

MEASURE VOLUME SET 150 ML

- Large calibrated burette chamber of 150 ml.
- Manufactured from USP class VI approved flexible cellulose propionate.
- Easy to read scale with white contrast background.
- Floating auto shut off valve acts as floating indicator and automatically shut off the drain path when the chamber gets empty to prevent any air trapping into the fluid line on entering patient's venous system.
- Micro dropper of 60 drops per ml.
- Sharp piercing spike provided with built in air inlet containing bacteria barrier filter.
- Separate plugs for extra medication and continuous change over.
- Roller type flow controller provides accurate flow control.
- Y injection site for extra medication.
- No-kink device prevents the kinking of tube during transportation.
- Sterile, individually packed in peelable pouch.

MEASURE VOLUME SET 100 ML PEDIATRIC

- Burette type measured volume chamber of 100 ml with 10 ml overflow limit.
- Micro drip with drop size of 60 drops per ml.
- Burette chamber is made of bio-compatible medical grade transparent polymer, suitable for infusion of all types of fluids.
- Hanger facilitates the hanging of complete device on the I.V. stand.
- Floating auto shut off valve acts as floating indicator and automatically shut off the drain path to prevent air in line.
- Roller controller provides accurate flow control.
- No-kink device prevents the kinking of tube during transportation.
- Separate plugs for extra medication and continuous change over.
- Sterile, individually packed.

MEASURE VOLUME SET LATEX FREE

- 100% latex free measured volume set provided with Y-injection site & luer slip connector.
- All other features are as above.

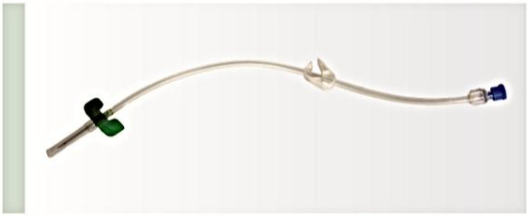
INFUSION SET WITH AIRVENT BULB LATEX Y SIGHT
INFUSION SET WITH Y SIGHT

- Specially designed vented infusion set with latex free "Y" injection site along with needle-prick protection shield.
- Unique rotating type luer-slip-connector.
- Compatible with all infusion pumps

PRESSURE MONITORING LINES

- Small bore high pressure extension line.
- Suitable for high pressure monitoring and for connection between syringe infusion pump and patient.
- Provided with male luer lock at one end and female luer lock at other end and fits all standard equipment.
- Luer lock connectors provide secure fitting.
- Sterile, individually packed in Blister pack

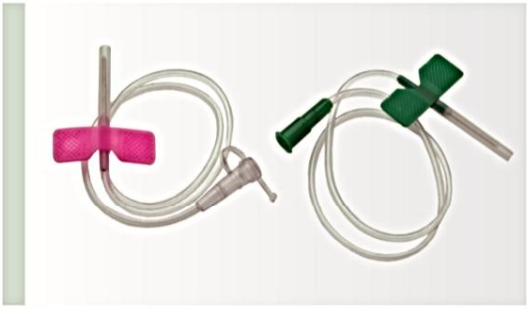
Available Configuration : SIZES : Length Prime Volume : 100cm. 0.90 ml 150cm. 1.40 ml 200cm. 1.80 ml



A.V. FISTULA

A. V. fistula needles set are indicated for use in conjunction with a connector of Hemodialysis blood tubing set.
AV Fistula Needles used to connect blood lines to the blood vessel through needle when dialysis is carried out via an internal fistula.Flexible butterfly wings are for proper fixation. Color coded wings for easy identification of needle sizes.
Soft, frosted and kink resistant PVC tubing during dialysis and Haemodialysis Process.

- A.V. fistula needles set are indicated for use in conjunction with a connector of Hemodialysis blood tubing set.
- Used to connect blood lines to the blood vessel through needle when dialysis is carried out via an internal fistula.
- Flexible butterfly wings are for proper fixation.
- Color coded wings for easy identification of needle sizes. Soft, frosted and kink resistant PVC tubing.
- Sizes : 15G,16G,17G.



SCALP VEIN SET

- Short beveled siliconised needle facilitates atraumatic cannulation.
- Thin wall needle provides better flow rate per gauge.
- Butterfly shaped wings facilitates easy handling and attachment with the skin.
- Butterflies are colour coded for instant identification of needle size.
- The proximal end of the set is provided with flexible female luer fitting.
- Butterfly connected to soft non-toxic, nonirritant tube which does not kink or coil.
- Sterile, individually packed in Blister pack.

SIZES : NG: 18, 19, 20, 21, 22, 23, 24 & 25

3 WAY EXTENSION LINE

- One end fitted with 3 way stopcock and another with luer lock male or female, as per requirement.
- Manufactured from Medical grade, Implantation test pvc. Length : 50 cm, 100 cm, 150 cm

EXTENTION LINE VTH MALE FEMALE LUER SET

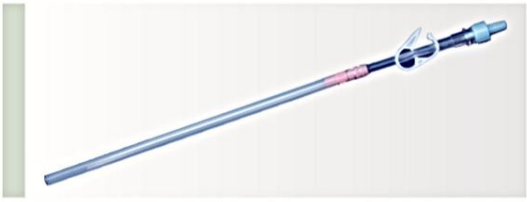
Low Pressure / Large Bore Extension Line with male and female luer lock at either ends GS-3032

- Sterile, individually packed in peelable soft blister pack.
- Length : 10, 50, 100, 150, 200 cm.
- Box of 20 / Master box of 200.

SPIRAL EXTENTION LINE

- Low pressure large bore extension line.
- Provided with male luer lock at one end and 3-way stop cock at other end enabling the user to run two lines simultaneously.
- Luer lock connector provide secure fitting.
- Manufactured from medical grade PVC.
- Sterile, individually packed in Blister pack.

Length : 10, 25, 50, 100, 150 & 200cm



FEMORAL CATHETER

A femoral catheter is a type of central venous catheter which is inserted into the femoral vein in the thigh. The catheter consists of a tube inserted into the vein with a needle, and fixed in place with stitches or medical tape, depending on the reason for the catheterization.

The tube provides ready access to the vein for medical procedures and medical testing, so that doctors do not have to constantly poke the patient with needles when they require venous access. Disposable Femoral catheters are usually used when other access points used to place central venous catheters are inaccessible or contraindicated. This is available in single lumen configuration.

INFUSION

I V CANNULA

- Specially designed for continuous peripheral intravenous infusion.
- Kink resistant FEP-Teflon cannula has extremely smooth inner and outer surface to ensure minimum trauma & smooth flow.
- Double moulded cannula tip ensures smooth & less traumatic cannulation.
- Super sharp Japanese triple faucet beveled needle is specially designed with two cutting edges for smooth penetration.
- Transparent flashback chamber allows immediate detection of blood.

I.V. Cannula with injection port.
Injection port with non return valve is provided for additional medication.
Port caps are colour coded for instant size identification.
Sizes : 14, 16, 18, 20, 22 & 24G. (Sterile individually blister pack.)

I.V. Cannula with injection port for continuous peripheral intravenous infusion.
3 radio opaque stripes for X-ray visualization.
Port caps are colour coded for instant size identification.
Sizes : 14, 16, 18, 20, 22 & 24G. (Sterile individually packed in blister pack with tyvek lid.)

Paediatric I.V.Cannula (without injection port)
Main body is specially designed with projection for low point gap to facilitate better maneuvering.
Size : 24G, **Length :** 19mm. (Sterile individually packed with tyvek lid.)

Neonate I.V.Cannula (without injection port).
Specially designed clips provided for better maneuvering.
Main body is specially designed with projection for low point gap to facilitate better maneuvering.
Size : 26G, **Length :** 19mm. **Colour Code** : Violet. (Sterile individually packed with tyvek lid.)

Specially Designed I.V. Cannula with integrated 3-way stop cock.
Rigid & sturdy design with flexible wings for convenient maneuvering.
Colour coded tap to regulate & identify the desired direction of flow.
3 way stop cock is provided for simultaneous infusion of fluids or additional medication.
Sizes : 18, 20 & 22G. (Sterile individually blister packed with tyvek lid.)

I.V. Cannula without injection port.
Proximal flexible wings for easy fixation. Radio opaque cannula has excellent biocompatiblity.
Colour coded for size identification.
Sizes : 16,18,20,22 & 24G. (Sterile individually blister packed.)
I.V. Cannula without injection port & without wings.
Sizes : 16,18,20,22 & 24G. (Sterile individually blister packed.)

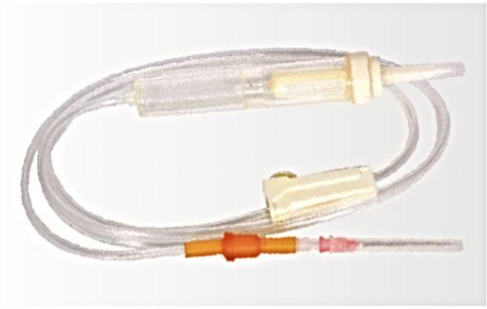
3 WAY STOP CORK

- Three way Stop Cock are suitable for use during pressure infusion and invasive Blood pressure monitoring.
- Manufactured from medical grade, Clear transparent polycarbonate.
- Three arm handle is easy to operate.
- Minimum residual volume, rigid construction with circular flow-channel
- Prevents the incidence of air-trap.
- Provided with two female luer lock ports and one male luer lock port with rotating lock, for safe connection to other device.
- Sterile, individually packed in Blister pack.

INFUSION

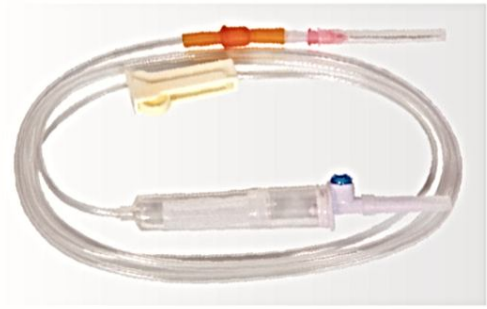
BLOOD SET DOUBLE CHAMBER

- Cylindrical drip chamber provided with 200 micron filter to prevent passage of any clot into the chamber.
- Sharp non-vented spike suitable for blood bags and all type of standard blood containers.
- Flash ball type injection port for extra medication.
- 150 cm kink resistant tube.
- Efficient roller controller for accurate adjustment of infusion rate.
- Sterile, individually packed.



BLOOD SET SINGLE CHAMBER

- Cylindrical drip chamber provided with 200 micron filter to prevent passage of any clot into the chamber.
- Sharp non-vented spike suitable for blood bags and all type of standard blood containers.
- Flash ball type injection port for extra medication.
- 150 cm kink resistant tube.
- Efficient roller controller for accurate adjustment of infusion rate.
- Sterile, individually packed.



BULB SET VENTED BULB LATEX

- Conforms to ISO 1135-4 standard.
- Cylindrical drip chamber provided with 200 micron filter to prevent passage of any clot into the chamber.
- Sharp non-vented spike suitable for blood bags and all type of standard blood containers.
- Available with or without 19G vein needle.
- Flash ball type injection port for extra medication.
- 150 cm kink resistant tube.
- Efficient roller controller for accurate adjustment of infusion rate.
- Sterile, individually packed.

TRANSFUSION

CLOSE WOUND SUCTION SET 400 ML.

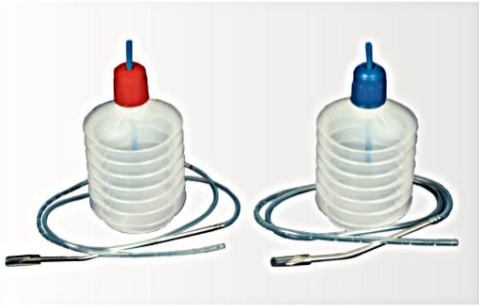
UNIT CONSIST OF :

- Bellow unit capacity 800 ml.
- Connecting tube with clamp and "Y" connector.
- Curved needle with matching catheter.
- Spare perforated catheter.

SIZES : FG 10, 12, 14, 16 & 18

CLOSE WOUND SUCTION SET 800 ML.

- Close wound drainage device under negative pressure with option to use one or two catheters post-operatively.
- Multiperforated catheters provided with radio opaque line and satin smooth eyes for efficient trauma free performance.
- Graduated bellow allows user to measure drainage volume.
- Different catheter sizes available to meet moderate to heavy drainage needs.
- Sterile, individually packed in a peelable pouch



MINI VAC SET

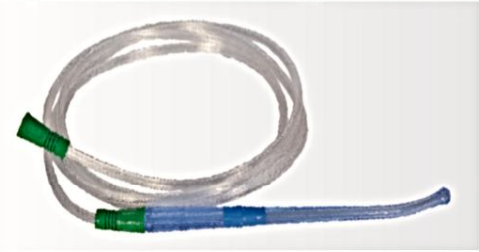
- Close wound drainage device under negative pressure.
- Radon drains have radio opaque line and burr free eyes for efficient trauma free performance.
- Easy to use by one person, depress the chamber to activate the suction of bellow unit.
- Sterile, individually packed in a peelable pouch

UNIT CONSIST OF : Bellow unit capacity 80 ml. Curved needle with matching catheter.

SIZES : Size in FG 6 & 8

YANKUER SUCTION SET PLAIN TIP VENTED

- Yankaur Suction Set is suitable for convenient removal of secretion, blood and debris etc per operatively.
- Complete set is provided with Yankaur Suction Tip mounted on two meter long ribbed tube provided with Universal connector at both ends.
- Universal connectors are moulded from soft PVC, so as to accommodate the Suction tip on one end and all type of connectors of suction apparatus at the other end.



- Ribbed tube is kink resistant and has the strength to withstand the suction.

Tube Length : 200cm

OD 9.00mm ID 6.00mm Tip Midi VC

- Sterile, individually packed in peelable soft blister pack

YANKUER SUCTION SET CROWN TIP VENTED

SURGERY

UMBLICAL CORD CLAMP REUASABLE

- Suitable for clamping the umbilical cord of new born baby immediately after the birth.
- Provided with double purpose security lock click to indicate the correct locking and protect against accidental reopening.
- Finger grip ensures safe and convenient handling, particularly when gloves are wet.
- Provided with grooves all along the length to prevent the sliping of the umbilical cord and to retain it in the same position.
- Manufactured from non toxic medical grade polymer.
- Supplied in blue color, other colours are available on demand.
- Sterile, individually packed in blister pack.

UMBLICAL CORD CLAMP DISPOSABLE

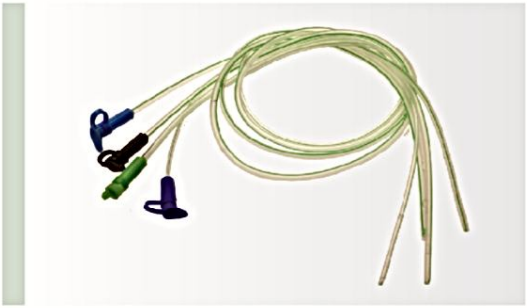
RAPID IRRIGATION SET

Used durig Cardiothoracic procedures.
With 150cm length ¼" with piercer spike at one end and cardioplegia Needle at the other end.

CENTRAL VENOUS PRESSURE MANOMETER SET

Suitable for continuous or intermittent, monitoring of central venous pressure during infusion particularly in ICU, CCU, OT's and casualty departments.

- Manometer tube with graduation from – 4 cm to +34 cm and attached to three way tap.
- 120 cm. long extension tube is fitted with female luer lock on one end and male luer lock on the other end for safe connection to central venous catheter.
- Latex free rubber flash ball type injection port is provided for extra medication.
- Sliding indicator provided to record previous reading.
- Moulded clamps with latex free rubber strings are provided for easy fixation on the I.V. stand.
- Sterile, individually packed in peelable pouch.



SIZES : 8, 10, 12, 14, 16, 18 & 20 FG
Length 105 cm.
SIZES : FG 12, 14 & 16.
Length: 120 cm.
SIZES : FG 5, 6, 7, 8, 9 & 10.
Length 52 cm.

FEEDING TUBE

- Infant feeding tube with Graduation.
- The tube is marked at every cm. from the tip starting from 5cm to 40cm for accurate placement.
- Distal end is coned with two lateral eyes.
- Proximal end is provided with female luer mount for easy connection to feeding funnel or syringe.
- Low friction, frozen surface facilitates atraumatic intubation.
- Radio-opaque line is provided throughout the length to facilitate the accurate location.
- Manufactured from non toxic PVC, non irritant to delicate mucosa.
- Sterile, Straight packed in peelable soft blister pack.

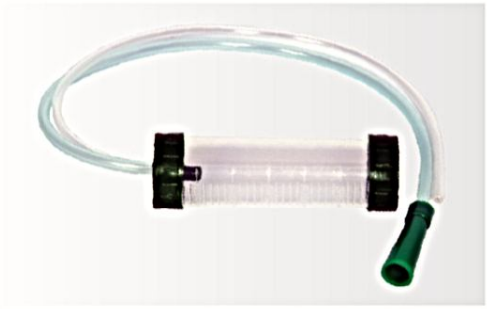
Color Code	Size in FG
Blue	8
Black	10
White	12
Green	14
Orange	16
Red	18
Yellow	20

RYLES TUBE

- Suitable for nasogastric insertion for nutritional purposes or aspiration of intestinal secretion.
- Manufactured from non toxic, non irritant PVC.
- Distal end is coned with corrosion resistant steel balls sealed into the tube to assist the passage of the tube during intubation.
- Four lateral eyes are provided for efficient aspiration & administration.
- The tube is marked at 50,60 & 70cm from the tip for accurate placement.
- Super smooth , low friction surface facilitates easy intubation.
- Radio opaque line is provided throughout the length.
- Proximal end is provided with universal funnel shape connector

STOMACH TUBE

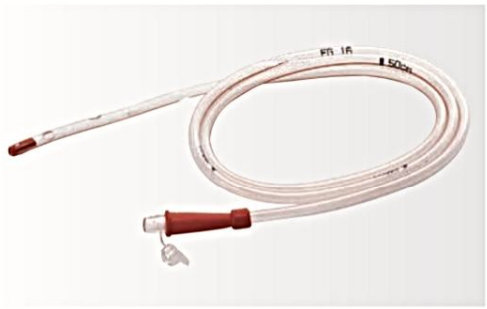
- Designed for gastro-intestinal feeding and aspiration
- Distal end is coned with four lateral eyes
- Low friction Medical grade PVC reduces the incidences of nasal discharges Radio opaque line throughout its length helps checking the position radiologically
- Proximal end is provided with universal funnel shape connector



MUCUS EXTRACTOR SET

- ✦ Specially designed for aspiration of secretions from oropharynx in newly born babies.
- ✦ Clear transparent container permits immediate visual examination of the aspirate.
- ✦ Also suitable for obtaining mucus specimen for micro biological examinations.
- ✦ Spare plug cap is provided to seal the container for safe transportation of specimen to laboratory or aseptic disposal of container.
- ✦ Sterile, individually double packed in a peelable soft Blister pack.

SIZES : FG 10 Capacity 25 ml



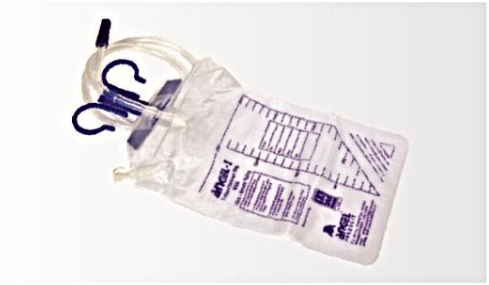
NASOGASTRIC TUBE

- ✦ Nasogastric tube.
- ✦ Distal end is coned with radio opaque material for easy intubation.
- ✦ Four lateral eyes are provided for efficient aspiration and administration.
- ✦ Super smooth, low friction, frozen surface facilitates atraumatic intubation.
- ✦ The tube is marked at 50, 60 & 70cm from the tip for accurate placement.
- ✦ Radio-opaque line for X-ray visualization
- ✦ Proximal end is provided with specially designed "DUAL PORT CONNECTOR".
- ✦ Colour coded for instant size identification.
- ✦ Sterile, Individually packed in peelable soft blister pack.

GASTROENTROLOGY

URINE BAG WITH UROMETER

- ✦ Urometer has been designed for measurement of hourly urine output.
- ✦ Clear and transparent measured volume chamber provides accurate measurement.
- ✦ Urine Meter directly attached to two litre capacity Urine Bag with overflow facility.
- ✦ Completely closed circuit eliminates the risk of contamination.
- ✦ Universal tapered connector facilitates asceptic catheter & urine bag connection.



ANGEL 1 URINE BAG DELUXE

- ✦ Two litre capacity bag provided with 100 cm long super smooth kink resistant tubing ensures unrestricted flow.
- ✦ Specially designed moulded handle facilitates easy carrying and handling of bag and holds the tube in upright position to prevent kinking.
- ✦ Efficient non-return valve with top outlet.
- ✦ Modified tapered connector facilitates aseptic catheter-urine bag connection.
- ✦ Sterile, individually packed in ribbon pack.

ANGEL 10 URINE BAG SUPER DELUXE

- ✦ 100cm long large bore kink resistant extra soft tube is easy to milk and ensures unrestricted flow.
- ✦ Ratchet clamp provided for locking the tube.

ANGEL ECONOMY URINE BAG

Closed urine drainage system for short and long term use.

- Manufactured from soft clinical grade PVC sheeting.
- Reinforced eyelets allow easy hanging and provide maximum protection against tearing.
- Push/Pull type bottom outlet allows convenient emptying.
- Kink resistant 90cm tube provided with universal tapered connector.
- Easy to read scale for quick determination of urine volume.
- Sterile individually packed, Pack of 25 / Master box of 250.
- Non sterile bulk pack, Box of 200 / Master box of 400.

URINE BAG BOTTOM OUTLET

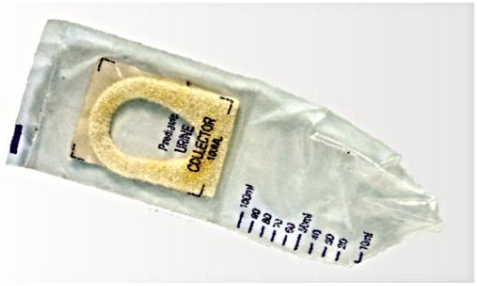
Closed urine drainage system for short and long term use.

- Manufactured from soft clinical grade PVC sheeting.
- Reinforced eyelets allow easy hanging and provide maximum protection against tearing.
- Push/Pull type bottom outlet allows convenient emptying.
- Kink resistant 90cm tube provided with universal tapered connector.
- Easy to read scale for quick determination of urine volume.
- Sterile individually packed, Pack of 25 / Master box of 250.
- Non sterile bulk pack, Box of 200 / Master box of 400.

With NRV and bottom outlet.

UROLOGY

URINE BAG VTH BURETTE



PEADIATRIC URINE BAG

- Use of hypo-allergic adhesive for fixation minimizes risk of allergy and injury.
- Suitable for both male and female infants.
- Sterile and individually packed

Capacity : 100 ml.

NELATON CATHETER

- Designed for short term bladder catheterization through urethera.
- Manufactured from Medical Grade PVC compatible with catheter lubricants.
- Frozen surface tubing for super smooth intubation.
- Coned distal end for atraumatic catheterization.
- Two lateral eyes for efficient drainage.
- Radio opaque line provided throughout the length of the catheter for X-Ray visualization.
- Universal funnel shape connector for easy connection to urine b ag.
- Sterile- ready for use.

Sizes in FG :
6, 8, 10, 12, 14, 16, 18. 20, 22 & 24
Length : 40cm.

TUR SET WITH AIRWAY SPIKE

- "Y"- shaped set for Endoscopic irrigation during Trans Uretheral Resection of Prostate Gland.
- Manufactured from non-toxic, non-irritant medical grade PVC.
- Thumb operated clamps, helps quick and smooth change of bottles.
- Proximal end fitted with flexible latex tubing for easy connection to Endoscope.
- Sterile, individually packed in peelable pouch pack.

TUR SET WITH NEEDLE

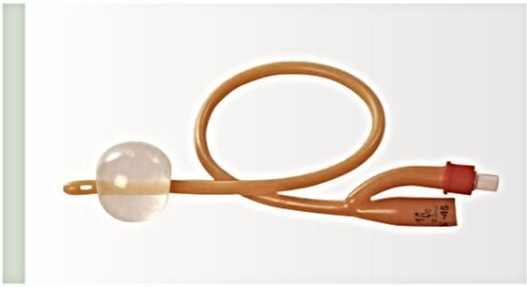
UROLOGY

URETHERAL CATHETER K91

- Made up of medical grade PVC
- Meant for short term bladder catheterization

Sizes : K-90 (FG-14) & K-91 (FG-10)

URETHERAL CATHETER K90



FOLLEY'S CATHETER

Standard & Paediatric (2-WAY)

- Symmetrical large capacity balloon ensuring a straight tip for proper flow and good sphincter action thus preventing bladder leakage.
- Manufactured from natural rubber coated with silicone to eliminate the risk of encrustation.
- Coned distal end provided with burr free eyes for atraumatic intubation.
- Hard valve ensures easy inflation and deflation of balloon.
- Colour coded for instant size identification.
- Sterile, individually packed in peelable pack.

Sizes :
Standard : 12, 14, 16, 18, 20, 22 7 24 FG
Balloon Capacity : 30ml
(2 way) Peadiatric : 8 &10 FG
Balloon Capacity : 5-10ml

MALE EXTERNAL CATHETER

- Penile Sheath/External Catheter.
- Male Cath is specially designed for urine incontinence for day and night use in male patients.
- Manufactured from 100% latex for soft and gentle feel.
- Provided with soft adhesive coated strip for proper fixing on the penis.
- Proximal end is designed for safe and easy connection to urine bag/leg bag.

SIZES : Small - 20 mm.
Medium - 25 mm.
Large - 30 mm.
Extra Large - 35 mm.

UROLOGY

AEROCIZER SPYROMETER 3 BALLS

- ✦ Innovative system to exercise respiration through inspiration.
- ✦ Specially designed with 3 stage chambers to provide more efficient exercise to patient at a up basis.
- ✦ Device is composed of base & central part divided into three chambers containing three small spheres different in size & color.
- ✦ Three spheres rise proportionately to the inspiration exerted.
- ✦ Innovative design, can be dismantled into parts for cleaning & disinfection.

Unit consist of : ✦ Transparent main body. ✦ Small spheres of red, yellow & blue color. ✦ Base ✦ Connecting tube with mouth piece.

GUEDEL AIRWAYS

- ✦ Guedel Airways are designed to maintain an unobstructed oropharyngeal airway during or following general anaesthesia and in patients who are unconscious for other reasons.
- ✦ Integral hard bite block avoids airway occlusion and biting of tongue.
- ✦ Stepless airway path for easy cleaning.
- ✦ Bite blocks are colour coded for instant identification of sizes.
- ✦ Manufactured from non-toxic, non-irritant polymer PE.
- ✦ Individually packed in peelable soft blister pack.
- ✦ Sterile ready for use.

SIZES : 00, 0, 1, 2, 3, 4, 5

OXYGEN MASK ADULT
OXYGEN MASK PAEDIATRIC

- ✦ Flexi Mask is designed for convenient oxygen therapy.
- ✦ Moulded face mask is manufactured from non-toxic, non irritant medical grade PVC.
- ✦ Provided with adjustable elastic strap for proper positioning of mask on the nasal area.
- ✦ Swivel connector for convenience of attachment to the oxygen tube.
- ✦ Two meter multichannel tube is provided to ensure continuous flow of oxygen.
- ✦ Proximal end fitted with soft funnel shape
- ✦ connector for easy connection to oxygen source.

SIZE : ADULT & CHILD **Length :** 200 cm.

ENDOTRACHEAL TUBE PLAIN

- ✦ Manufactured from thermosensitive material readily conforming to body contours at body temperature.
- ✦ Nasoral tip suitable for nasal/oral incubation.
- ✦ Radio-opaque line throughout the length to facilitate the exact location of the tube.
- ✦ Proximal end is fitted with standard 15 mm connector.
- ✦ Sterile individually packed in peelable blister pack.

Sizes : 2.5 mm to 7.5 mm Bore with 0.5 mm Stage

SUCTION CATHETER

SUCTION CATHETER VTH THUMB CONTROL

- Oro-bronchial catheter.
- Distal end is open with one lateral eye to avoid trauma during suction of oro-bronical secretion.
- Frozen surface tubing for smooth intubation.
- Colour coded for instant size identification.
- Sterile & straight packed in peelable soft blister pack.

SUCTION CATHETER (PLAIN)
Provided with Funnel shape connector for safe connection to the suction equipment

SUCTION CATHETER (TC)
Provided with "T" Type vacuum control valve and a plug for Thumb control suctioning and direct suctioning. Graduated from distal end increase safety for correct positioning of the catheter.

TWIN BORE NASAL CANNULA (ADULT)

TWIN BORE NASAL CANNULA (PEADITRICT)

- Manufactured from soft, non-toxic PVC thus non irritating even in long term use.
- System of attachment provides maximum freedom to the patient and leaves the patient's mouth free for nutrition & communication.
- Twin bore/ nasal tips are designed to ensure equal volume of oxygen to both air passages.
- Soft funnel shape connector facilitates easy connection to the oxygen source.
- Multichannel tube ensures the supply of oxygen even if the tube kinks accidentally.
- Non-sterile, individually packed in poly bag.

NASAL CANNULA COMPONENTS

SIZES:
ADULT, CHILD & INFANT.
Length: 200cm

CATHETER MOUNT

- Double swivel elbow connector with suction port & cap provides better flexibilty, easy accessibility & provide comfort to patient during suction.
- 15mm I.D./22mm O.D. connector snuggly fits to all tracheal tubes.
- 22mm standard female connector is compatible with all breathing & ventilator circuits.
- Specially designed port at the elbow facilitates suction & gas sampling without disconnecting the breathing circuit.
- Stepless airway pathway for easy cleaning.
- Collapsible corrugated tubing is inert to all anaesthetic gases & reagents

RESPIRATORY

BREATHING CIRCUIT

Breathing Circuit is the gas pathway connecting patients lung to the mechanical ventilator. it is essential that Circuit should be highest quality in order to Ventilate patient cprrectly,efficiently and safely.Airways offers wide range of circuit with ISO standard connectors to suit most of the ventilator and humidifier.combinations.

We can customize the product as per the individual need.

Product features : Wide range, high tranparency, Flexibility, minimum compliances and sterile.

HME FILTER

Medical filters are used in respiratory support equipment such as life support and human ventilation machine, fitted in the airway between equipment and patient. The removal of bacteria from the air breathed in the hospital environment is critical in the protecytion of the patients,other hospital personnel and breathing support equipment

Filters : utilize hyddrophobic membrane & synthetic media that provide barrier & electrostatic filtration with bacterial & vital removal effciency higher than 99.99% accompolished with extremely low resistance to airflow. The HMW Keeps moisture retention and warming of inhaied air, Aeroclean filter design in different sizes with CO2 monitoring port,faciliate use on a wider range of patients.

Products Features : Clear housing, Low flow resistance High filtration efficiency, High heat & humidity level, CO2 Montroring level, Port Sterile package.

NEBULIZER MASK ADULT
NEBULIZER MASK PAEDRIATIC

- ✦ Soft, clear aerosol mask with anatomical form is ideal for long term use.
- ✦ Gently rolled, feathered edges with nose bridges for extra comfort.
- ✦ Rotating type connector for patient's comfort.
- ✦ Larger surface area provided by unique convex cone design, ensures maximum capillary action and eliminates medication wastage.
- ✦ Nebulizes 3 cc within 10 minutes in horizontal or vertical position ensuring patient comfort.

NEBULIZER 6 CC

is made for good performance & economy. It helps patient effective nebulization & make patient comfortable.

Product features : 1. Single use nebulizer

2. Create consistent particles of optimal therapeulitcs use.

3. Easy seal, quarter locking cap and anti spill to prevent leakage. **4.** Availabe in various packaging Configurations. **5.** Fits Oxygen tubing connections. **6.** Provide effective nebulization.

RESPIRATORY

ADK BAG (ABDOMINAL DRAINAGE KIT)

- Specially designed for post operative abdominal drainage.
- Soft and smooth catheter with large traumatic eyes for efficient drainage.
- Radio-opaque line throughout its length help x-ray visualization.
- Specially designed foldable handle suitable for bed side hanging.
- Colour coded for instant size identification.
- Sterile, individually packed in a peelable pouch.

UNIT CONSIST OF :
Soft drainage catheter 50 cm long.
Collection bag of 2000 ml capacity.

SIZES : 20, 24, 28 & 32 FG

ANTEGRADE CARDIOPLEGIA CANNULA

CARDIOPLEGIA CANNULA
(Aortic root cannula with vent line, 16G Trocar)
Cardioplegic Cannula is designed for delivery of Cardioplegic agents/solutions during Cardio pulmonary **bypass surgery** and for venting off the aorta at the conclusion of the surgery. The product consists of **a flexible tube with a stainless introducer Trocar.** This cannula is provided with **16G Needle**. With the bifurcated cannula, simultaneous venting and administration of Cardioplegic agent is possible using single cannula. The easly removable Trocar provides the necessary cannula rigidity during the initial penetration of the aortic wall. The **Trocar has a side hole** to provide for an indication of the Blood flow. Fitted with ¼" **tube connector.**

HEMOSTASIS Y CONNECTOR (WITH SILICONE VALVE AND O RING)

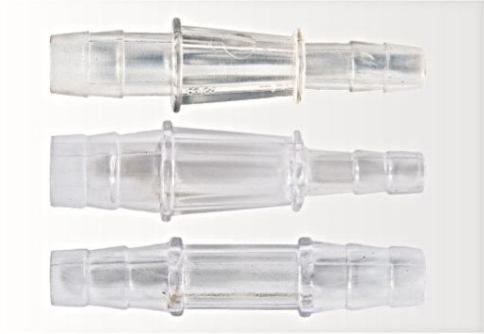
Hemostasis Valve Y Connector, 10 FR (0.130 inch) (3.3 mm) with Rotating Male Luer Lock and Female Luer Lock Sideport

Material : Polycarbonate, Silicone, Teflon

INTER COASTAL DRAINAGE BAG

- Under water seal drainage system for collection of drainage fluid from the chest cavity.
- PVC drainage bag with 1000 ml capacity suitable for most thoracic applications.
- Clearly marked initial level ensures the under water seal.
- Super smooth kink resistant tubing is easy to milk and ensure unrestricted flow.
- Specially designed moulded handle facilitates easy carrying and hanging of bag.
- Sterile and individually packed in H.M. Peelable polybag

Sizes : Capacity 2000 ml.



STRAIGHT CONNECTORS

1-2 x 1-4

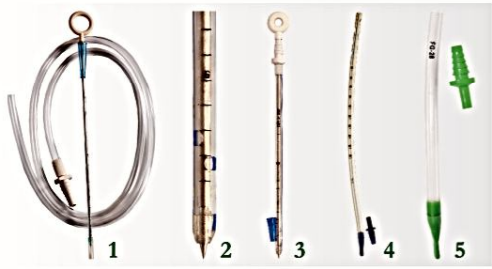
1- 4 x 3 – 8

3 – 8 x 3-8

EXTRA CORPOREAL CONNECTORS
Or STRAIGHT/REDUCER CONNECTORS :

[Polycarbonates] : used in connecting different diameter tubings in Surgical procedures.

SIZE : ½" x 3/ ¼" x ¼" 3/8" x 3/8" ½" x ½" 3/8" x ¼"



THORACIC CATHETERS

1. **THORACIC TROKAR CATHETER** (PADRIATRIC)
2. **THORACIC TROKAR CATHTER**
3. **THORACIC CATHETER** (WITH TROKAR)
4. **THORACIC CATHETER** (STRAIGHT)
5. **THORACIC CATHETER**

THOROCIC CATHETER WITH TROKAR

- Specially designed for quick non operative pleural and chest drainage.
- Flat handle facilitates easy maneuverability.
- Large smooth drainage eyes for efficient drainage.
- Markings provided at 5, 10, 15 & 20 cm. from the distal tip to help ascertain depth of penetration.
- Proximal end is fitted with tapered connector for easy connection to drainage bottle.
- Sterile, individually double packed in a peelable pouch.

SIZES : FG 12, 16, 20, 24, 28 & 32

Y CONNECTORS

'Y' CONNECTORS – [POLYCARBONATE] :
USED IN SURGICAL PROCEDURES
Y CONNECTOR FOR CLOSE WOUND SUCTION
SIZE : 3/8" x 3/8" x ½",
¼" x ¼" x ¼"
3/8" x 3/8"3/8" x 3/8" x ¼"
3/8" x ¼" x ¼"

•Y CONNECTOR FOR I V SET

CARDIOLOGY

CHEST DRAINAGE SYSTEM

THORADRAIN :
(Pleural Drainage Bottle/chest drainage system) DISPOSABLE VOLUMETRIC AIR TIGHT **POLYMER** BOTTLE is specially designed for Thoracic Drainage Collection IN PAEDIATRIC & ADULT Procedures. **Larger diameter transparent hard pipe** is fixed to the bottle **to avoid blockage and to facilitate easy flow** during the collection procedure.

Water level is indicated on the bottle. Water should be filled to the level indicated in the bottle (Inlet hard tube end should be completely within the water level) before starting the procedure. **Connecting tube and a connector are provided** in the set. For regular bulk users initial Bottle Stand is provided to prevent toppling of the bottle.

Bottle Capacity : Paediatric: 500ml, 1 Lit Adult: 2 Lit.

A QUALITY PRODUCT FOR BYPASS SURGERY/CARDIO THORACIC SURGERY.

THORADRAIN – SPECIAL

(Chest drainage system)
DRAINAGE COLLECTION BOTTLE, EXCLUSIVELY DESIGNED FOR CARDIO-THORACIC BYPASS & OTHER THORACIC SURGERIES.

The transparent and rigid container is well calibrated with easily readable measurements, has two chambers. The small 1st level chamber collects fluid upto 700 ml and the bigger 2nd level chamber collects further 1550 ml, a total capacity of 2250ml during and after Cardiothoracic Procedures. Transparent glassy bottle provides easy viewing of the collected fluid.

The first level is suitable for child & Paediatric patients and the 2nd level is suitable for adults. Hence, the same product can be used for both the paediatric and adult cases.

The container/bottle has a fixed base to avoid tilting during usage.

The Calibrated measurement marks can be easily read from a distance.

The collection and vacuum tubings are kink less & flexible and has good length for the procedure. We have provided a funnel to fill the required water into the 1st level chamber, to avoid spillage while filling the water. All suggestions of actual users and consultants are taken while designing our product THORADRAIN–SPECIAL. Supplied in sterilised HDPE pouches and packed in corrugated box for safe delivery.

HAEMODIALYSIS SET

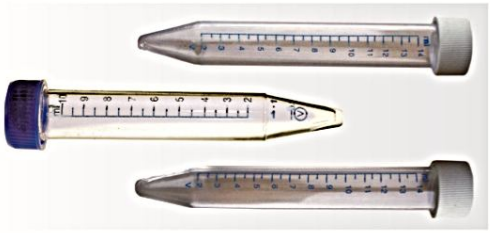
This tubing set consist of two parts, viz. arterial and venous, which are used during dialysis and are attached with fistula and dialyzer. These tubing sets are designed for the patient to connect external system which extracts patient's blood to the dialyze.

TRANSDUCER PROTECTOR

Transducer protectors are used in hemodialysis blood lines to keep the blood side of the circuit separated from the machine side, and to prevent contamination of the machine by the blood flowing through the circuit.

This contamination could be very dangerous and can lead to patient cross contamination with hepatitis B or other virus. Transducer protectors let air pass while preventing the blood from passing through. TP's incorporate bacterial retentive membrane (0.2µm, if not otherwise requested).

Membrane Solutions transducer protectors are also suitable as air or gas vents. Venting characteristics are achieved by using hydrophobic membranes. Membrane Solutions has a full range of transducer protector products which incorporate either highly hydrophobic PTFE or hydrophobic acrylic membranes, and custom products can be manufactured upon request.



CENTRIFUGAL TEST TUBE (Styrene)

- Transparent 10 ml capacity with screw cap, calibration with 0.5 ml.
- Conical bottom 2 test Tubes pack , sterilized, ready to use.

PETRI DISH

- For storage of samples and Media and for bacteriological studies.

URINE CULTURE CONTAINER

- STERILE SPECIMEN CONTAINER F 05
- SAMPLE *I* SPERM CONTAINER (Styrene):
- ml Capacity Container with lid, transparent, Single packed, Gamma Sterile, ready for use.

PIPETS

- 1 ML & 3 ML capacity calibrated to 0.5 ml,1ml , 2 ml, and 3 ml.
- Tapering end to suit Cryovials and Test tubes.

CRYOVIAL

- For storage of sample media with cap and side well for liquid nitrogen

DISPOSABLE CAP

Specially designed to protect the patient against dropping of hair and drandruff of the doctors and the attenting staff.

- Manufactured from soft non woven green/blue cloth.
- Provided with stitched interlocking adaptable elastic for better grip on the forehead and comfortable fitting.

DISPOSABLE MASK

Three ply mask offers 98% bacterial filtration efficiency making it the users choice for all major surgeries.

- Super smooth soft ultrasonically welded mask is most comfortable during use.
- Flexible nose clip for proper positioning on the nose bridge.
- Dispenser box o

Features :

- Double layer mask offering excellent bacterial filtration efficiency.
- Super smooth soft ultrasonically welded mask is most comfortable during use.
- Flexible nose clip for proper positioning on the nose bridge.
- Box of 50.

SIZES: 25 mm width x 250 mm length

CORRUGATED DRAINAGE SHEET

- Designed for efficient multichannel wound drainage specially where airtight closure of wound is not possible.
- Manufactured from non toxic, non irritant medical grade PVC.
- Extra soft PVC does not contribute to local inflammation.
- Radio opaque line provided throughout the sheet length for x-ray visualization.
- Sterile, individually packed in a H.M polybag

SPLINT

PAEDIATRIC SIZES - 1 & 2
ADULT SIZES - 3 & 4
ORTHOPAEDIC - 5 & 6

Best way of supporting the wrist or elbow or any part of the hand for preparing the patient for fluid administration is **by using splints** that are specially designed for the purpose. Hard bottom prevents folding of wrist and soft upper provides convenience to the patient for long duration of transfusion procedure.

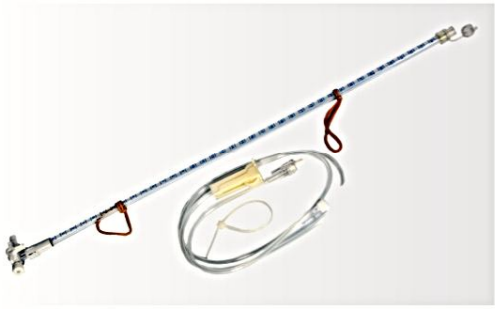
Special sizes can be made as per the requirement of the specific procedure.

CEREBRAL DRAINAGE BAG :

Soft polymer Drainage Bag is fixed to Connecting Tube, Burette and 3-way stopcocks.
The **upper 3-way stopcock** is used for **aspirating procedure** while the **lower 3-way stopcock** is used for **collection of samples** for analysis.
Volumetric Burette allows measurement of drained fluid. The Connecting Tube has **luer-lock** end to fix **Ventricular Catheter.**

CSF DRAINAGE KIT : (For Neuro-surgery procedures) :

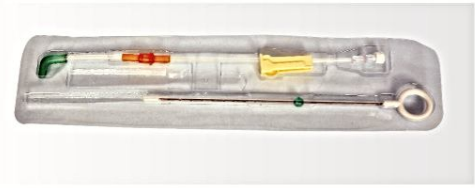
The kit contains **Cerebral Drainage Bag** separately with **Ventricular Catheter.**
The Ventricular Catheter is implanted in the operated part of the brain for draining purpose. The Ventricular Catheter is made up of perforated special grade silicon tubing and has a guide wire and luer-lock end to fix to Cerebral Drainage bag.



CVP MANOMETER

Features:

- Suitable for continuous or intermittent, monitoring of central venous pressure during infusion particularly in ICU, CCU, OT's and casualty departments.
- Manometer tube with graduation from -4 cm to +34 cm and attached to three way tap.
- 120 cm. long extention tube is fitted with female luer lock on one end and male luer lock on the other end for safe connection to central venous catheter.
- Latex free rubber flash ball type injection port is provided for extra medication.
- Sliding indicator provided to record previous reading.
- Moulded clamps with latex free rubber strings are provided for easy fixation on the I.V. stand.
- Sterile, individually packed in peelable pouch



PERITONEAL DIAYLYSIS CATHETER SET

- Stainless steel trocar is provided with triple angle sharpness to facilitate smooth penetration.
- Spare scalpel blade is supplied to provide the incision.
- Multihole, open end catheter is manufactured from medical grade polyamide.
- The trocar and the tip of the catheter is perfectly matched to facilitate trauma free entry.
- Latex free flash Ball is provided on the junction unit for additional medication.
- Complete kit is placed in thermoformed tray, packed in peelable pouch.Unit consists of :

✳ Stainless steel trocar.
✳ Multihole, smooth tip catheter.
✳ Junction unit with control clamp.
✳ Scalpel Blade.

PERITONEAL DIALYSIS SET

PERITONEAL DIALYSIS TRANSFUSION SET

- Specially designed "Y" shape transfusion set for administering dialysis solution.
- Provided with two upper clamps to facilitate the alternative change of solution bottles.
- Two lower control clamps help easy input & drainage of solution.
- Proximal end is provided with suitable adapter for easy connection to catheter unit.

HIV KIT VTH GOOGLES

Kit consist of :

- Proto Gown -1Pc.
- Hood Cap -1Pc.
- Surgeon's Cap (with Bacterial Filter) -1Pc.
- Shoe Legging (Knee Length) -1Pair
- Latex Gloves -1Pair.
- PE Sheet -1Pc.
- Goggles -1Pc.
- Carry Bag -1Pc.
- Face Mask -1Pc.

ICD KIT

Contents :

(1) Intercostal Drainage Tube
(2) Intercostal Drainage Bag
(3) Povidone Iodine Solution 5%
(4) Sterile Guaze
(5) B. P. Handle with Blade
(6) Suture
(7) Elasto Plaster Band
(8) Scissors

COLOSTOMY BAG WITH BELT

- Specially designed for closed colostomy management.
- Manufactured from extra soft clinical grade PVC.
- Breathable flange with hypo-allergic adhesive, prevent skin maceration.
- The hole opening can be increased or reshaped as required.
- **Size :** 250 X 140 mm Hole Dia 30 mm

- **Optional Hole diameter can be changed as per customer requirement**

CSF DRAINAGE KIT : (For Neuro-surgery procedures) :

The kit contains Cerebral Drainage Bag separately with Ventricular Catheter.

The Ventricular Catheter is implanted in the operated part of the brain for draining purpose.

The Ventricular Catheter is made up of perforated special grade silicon tubing and has a guide wire and luer-lock end to fix to Cerebral Drainage bag.

Transmission Gel

FOR EXTERNAL USE ONLY

Ideal coupling medium for Sonography, Echocardiography, Doppler etc.
Perfect contact for clear image.
Spreads easily & uniformly.
Safe for transducer.
Non-Greasy, Non-Irritating
Neutral pH, Water Soluble, prepare in R.O. Water
Easily removable woth towel or tissue

Electrode Gel

FOR EXTERNAL USE ONLY

IUID CURVED

IUID SPECIAL 15 CMS

IUID SPERMIN DC

IUID STANDARD 6F 9 CMS

INTRAUTERINE INSEMINATION DEVICE - LU.L D CATHETER :

a) IUID CATHETER - Standard, Hard Cannula 6F, 9cm
b) IUID CATHETER - D.C. - with Double Cannula, Soft) 8F, I2cm
c) IUID CATHETER SPECIAL - with Soft Double Cannula and side opening. 8F,15cm with stopper

- Specially designed product for Artificial Intra Uterine insemination procedure. The Cannula is gcm or 12cm. or 1Scm long as per Specialists' requirement. It is made up of special grade polymer. Catheter is rigid enough for easy cannulating the Cervix with sufficient flexibility. Tapered end facilitates easy movement in the cervIx.
- 1 ml. syringe is provided for administering semen.

KARMAN CANNULA

- Specially designed for aseptic medical termination of pregnancy
- Distal end is coned with tow large lateral eyes to facilitates the curette
- Suitable for use with MTP syringe or suction apparatus Individually packed

GYNAECOLOGY

GROUP COMPANIES

ATLAS INDUSTRIAL CORPORATION

Incorporated in 1977, ATLAS caters to the medical, pharmaceutical, chemical, food, pesticides and petrochemical industry by manufacturing plastic blow moulded and injection moulded containers and components ranging from 5ml to 5000ml capacity in various shapes and sizes with in house screen/pad printing facility on containers as well as hot stamping for caps and closures of various designs.

A member of the **Gujarat State Plastic Manufacturers Association (GSPMA)**, ATLAS has been associated with reputed companies like NATIONAL DAIRY DEVELOPMENT BOARD, INTAS PHARMACEUTICALS LTD., CADILA HEALTHCARE LTD., HESTER BIOSCIENCES LTD., BRILLIANT INDUSTRIES LTD., LINCOLN PHARMACEUTICALS LTD. and various other organizations all over India.
